**Handle Type:**

Lever

**End Connection Quantity:**

1 single group

**Valve Quantity:**

1

**Valve Handle:**

Included

**Product Name:**

Tester, coolant barrier pressure

**Special Features:**

System allows changing cooling system components without draining system, uses shop air to create light vacuum that prevents coolant from draining as a component is changed

**Material:**

Aluminum and steel

**Surface Treatment:**

Chromium

**Style Designator:**

High pressure flare single group

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T240-d
