Handle Type:

Lever

End Connection Quantity:

1 single group

Valve Quantity:

1

Valve Handle:

Included

Product Name:

Tester, coolant barrier pressure

Special Features:

System allows changing cooling system components without draining system, uses shop air to create light vacuum that prevents coolant from draining as a component is changed

Material:

Aluminum and steel

Surface Treatment:

Chromium

Style Designator:

High pressure flare single group

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T240-d
