Width:

2.906 inches

Diameter:

5.250 inches

Blade Quantity:

30

Attachment Method:

Setscrew

Rotation Direction For Which Designed:

Clockwise

Blade Shape:

Forward curve

Special Features:

Cw rotation viewed from closed side of wheel; w/2 1/4-28 unf holes in hub 90 degrees apart

Material:

Steel

Style Designator:

Curved blades single width

Reference Number Differentiating Characteristics:

As differentiated by impeller attachment method

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A087a0
