| Stage Quantity:                                      |
|------------------------------------------------------|
| 1                                                    |
| Speed Adjustments:                                   |
| Single speed                                         |
| Width:                                               |
| 5.344 inches                                         |
| Length:                                              |
| 9.250 inches                                         |
| Environmental Protection:                            |
| Moisture resistant                                   |
| Ambient Tempurature At Full Rated Power:             |
| -0.0 degrees celsius and 50.0 degrees celsius        |
| Operating Speed At Rated Capacity In Rpm:            |
| 3200.0                                               |
| Electrical Connection Type:                          |
| Wire lead                                            |
| Static Pressure At Specificationified Air Flow Rate: |
| 0.0 inches of water                                  |
| Drive Type:                                          |
| Direct                                               |
| Prime Mover Type:                                    |
| Electric motor                                       |
| Inclosure Type:                                      |
| Fully enclosed                                       |
| Mounting Facility Type And Quantity:                 |
| 6 threaded hole                                      |
| Rotation Direction For Which Designed:               |
| Counterclockwise                                     |
| Outlet Location:                                     |
|                                                      |
| Voltage In Volts And Current Type:                   |
| 115.0 ac                                             |
| Prime Mover Power Rating:                            |
| 0.008 horsepower                                     |
|                                                      |
| Discharge Direction:                                 |
| Horizontal                                           |
| Phase:                                               |
| Single                                               |
| Special Features:                                    |
| Addition of inlet cone                               |
| Height:                                              |
| 10.000 inches                                        |

# NSN 4140-00-423-5957

Centrifugal Fan - Page 2 of 2

Material:

Aluminum alloy

#### Style Designator:

Fixed, inverted, rectangular outlet

Shelf Life:

N/a

## Unit Of Measure:

--

### Demilitarization:

No

Fiig:

A087a0
