Speed Adjustments:

Two speed

Environmental Protection:

Corrosion resistant

Drive Type:

Direct

Prime Mover Type:

Electric motor

Mounting Facility Type And Quantity:

1 base and 3 unthreaded hole

Voltage In Volts And Current Type:

24.0 dc

Special Features:

6 1/2 in. Diameter blade; on-off switch on base

Material:

Aluminum blade

Style Designator:

Fixed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A087a0
