Width:

220.0 millimeters

Diameter:

71.0 millimeters

Static Pressure At Specificationified Air Flow Rate:

0.0 inches of water

Drive Type:

Direct

Mounting Facility Type And Quantity:

4 bolt

Rotation Direction For Which Designed:

Clockwise

Air Flow Rate:

999.0 cubic meters per minute

Outlet Location:

Bottom and top

Discharge Direction:

Vertical down and vertical up

Material:

Plastic

Style Designator:

Straight blades single width

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A087a0
