**Diameter:**

7.500 inches

**Flow Direction:**

Outward

**End Application:**

Boat cabin

**Drive Type:**

Direct

**Prime Mover Type:**

Electric motor

**Inclosure Type:**

Guarded

**Mounting Facility Type And Quantity:**

1 bracket

**Voltage In Volts And Current Type:**

12.0 dc

**Special Features:**

Oscillates 120 degrees horizontally or can be operated from stationary position; vertical adjustment; may be mounted vertically or horizontally; color white with transparent blades, quiet motor draws 1.2 amps

**Style Designator:**

Fixed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A087a0
