**End Application:**

Adp processing server a115038-01, virginia class submarine

**Static Pressure At Specificationified Air Flow Rate:**

100.0 millimeters of water

**Drive Type:**

Direct

**Mounting Facility Type And Quantity:**

4 unthreaded hole

**Air Flow Rate:**

0.3 cubic meters per minute

**Product Name:**

Fan/dual servr assembly

**Special Features:**

Drated voltage 12v dc; operating voltage 7v dc to 13.8v dc; rated current 0.24 a maximum at 12v dc; rated speed 8700 min at 12v dc; operating temp range -10c to +70c; sound pressure level 37 db

**Material:**

Plastic

**Style Designator:**

Fixed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A087a0
