Ford Applications
End Application:
Adp processing server a115038-01, virginia class submarine
Static Pressure At Specificationified Air Flow Rate:
100.0 millimeters of water
Drive Type:
Direct
Mounting Facility Type And Quantity:
4 unthreaded hole
Air Flow Rate:
0.3 cubic meters per minute
Product Name:
Fan/dual servr assembly
Special Features:
Drated voltage 12v dc; operating voltage 7v dc to 13.8v dc; rated current 0.24 a maximum at 12v dc; rated speed 8700 min at 12v dc;
operating temp range -10c to +70c; sound pressure level 37 db
Material:
Plastic
Style Designator:
Fixed
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A087a0
