Flow Direction:

Inward

Static Pressure At Specificationified Air Flow Rate:

210.0 millimeters of water

Drive Type:

Direct

Mounting Facility Type And Quantity:

1 flange

Rotation Direction For Which Designed:

Clockwise

Air Flow Rate:

0.4 cubic meters per minute

Special Features:

24 volt rated operateing voltage. 50/60 hz.

Material:

Plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A087a0
