End Application:

Lab ref. Fan f3200-14801

Component Quantity:

3

Component Document Origin:

Industrial

Document Source:

82877

Document Type:

Catalog sheet

Usage Design:

To run airflow test for new lab ref fan

Product Name:

Fan assembly ax2ht, 028mcdc, s, 3708sf

Special Features:

Airflow 37cfm; 1.50 pressure shut-of (wg); 28 dc line voltage; 20.8936 power(watts); 0.70 run current(amps) ; 15, 000 rpm; 85 degrees celsius maximum ambient temp; accessories: low speed warning detector, airflow switch and finger guard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
