Blade Quantity:

5

Rotation Direction For Which Designed:

Counterclockwise

Hub Location:

Center

Prime Mover Drive Shaft Bearing Type:

Ball

Special Features:

115 or 230 vac operating voltage; exhaust over struts air flow; permanent split capacitor motor; 22 awg lead wire terminal connection

Material:

Aluminum housing

Style Designator:

Rounded tip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A087a0
