Diameter:

3.0 inches

Length:

2.52 inches

Drive Type:

Direct

Mounting Facility Type And Quantity:

1 flange

Rotation Direction For Which Designed:

Clockwise

Air Flow Rate:

104.0 cubic feet per minute

Product Name:

Small vaneaxial fan

Special Features:

Aluminum: mil-c-5541, black enamel color: 37038: federal standard 595 conforming to tt-3-f89 type b, stator wound in accordance with the specifications for class f insulation.

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A087a0
