Speed Adjustments:
Single speed
Diameter:
18.50 inches
Length:
25.0 inches
Drive Type:
Direct
Prime Mover Type:
Electric motor
Prime Mover Power Rating:
0.167 horsepower
Phase:
Single
Special Features:
Standard construction: dimensions in metrics=I 640.08mm h 419.1mm d 469.9mm: spun aluminum housing; backward inclined centrifugal
aluminum wheel; birdscreen; backdraft dampener; aluminum pre-punched curb cap with welded corners; oversized electrical conduit;
pre-wired jucntion bo (single speed motors up to 5hp); regreasable cast pillow black ball bearings; neoprene vibration isolators; corosion
resistant fasteners; ft(fatrap) option; high wind option; hs (heat & smoke0 option-ul smoke control (bd) 500 for 4 hours and 100 for 1 hour;
intrnal wiring: 3r-nema 3r(weather proof)
Frequency In Hertz:
60.0
Height:
16.50 inches
Material:
Aluminum housing
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A087a0
