Width:

0.750 inches

Overall Length:

1.156 inches

Melting Point Temperature Rating:

174.0 degrees fahrenheit

Special Features:

Bonded w/174.0deg f eutectic alloy; two slotted holes 0.219in dia; two steel balls enclosed; 0.156in.O/a thk

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A501x0
