End Application:		

## **General Description:**

Provides 2 dector line circuits each incorporating up to 30 ionization, flame or thermal detectors, up to 20 photoelectric detectors, or any quantity of shorting type contact devices; maximum zone line resistance-35 ohms, with detectors-20 ohms; weight-aprox 1 lb

## **Fsc Application Data:**

Halon fire suppression system

Shelf Life:

F-16 oft

N/a

**Unit Of Measure:** 

--

**Demilitarization:** 

No
