Cross Sectional Shape:

Round

Outside Diameter:

5.250 inches

End Connection Design:

Straight 1st end

Connection Type:

Threaded internal hose 1st end

Maximum Operating Pressure:

400.0 pounds per square inch

Outer Covering Environmental Protection:

Abrasion resistant and water resistant

Measuring Method And Length:

15.000 feet

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
