**Cross Sectional Shape:**

Round

**Outside Diameter:**

2.500 inches

**Burst Test Pressure:**

1200.0 pounds per square inch

**Hydrostatic Test Pressure:**

700.0 pounds per square inch

**Outer Covering Environmental Protection:**

Mildew resistant

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

600.000 inches excluding end fittings

**Special Features:**

Double jacketed w/special heat and abrasion features

**Special Markings:**

Black-red-black stripes

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A542a0
