Prime Mover Quantity:

1

Length:

95.000 feet

Prime Mover Type:

Diesel engine

Design Type:

Structural

Operation Method:

Hydraulic motor

Pump Drive Type:

Power take-off

Pump Capacity:

1250.0 gallons per minute

Pump Type:

Rotary

Tank Capacity:

250.00 gallons

Extinguishing Agent For Which Designed:

Water

Water Tank Quantity:

1

Aerial Ladder:

Included

Front Wheel Drive Feature:

Not included

Cab Design:

Closed

Product Name:

Truck, fire fighting, (telescoping aerial ladder and work platform)

Special Features:

Manual emergency engine shutdown; electric fuel priming pump; driver cont. High idle switch; red/blue strobe type warning lights; dual stutter tone airhorns; 100 watt electronic siren with volume control and selection of radio pa, manual, yelp, wail and hi-lo siren modes; cab roof mounted spotlights; driver controlled magnetic drive line retarder, driver controlled engine compression retarder; 50 gal fuel tank

Supplementary Features:

Capable of operating in temperatures ranging from 0 to 125 degrees f, when specified a winterization system shall extend operational range of the trucks pump & piping to minus 40 degrees f; engine & pumpingsystem operational design elevation shall be 8000 ft above sea level

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T278-2
