**Overall Length:**

12.000 inches

**Overall Height:**

14.000 inches

**Overall Width:**

9.700 inches

**End Application:**

V-22 aircraft

**Accessory Components And Quantity:**

Tester 1; heater probes 2; heater cables 2; 115 vac power cable 1; 230 vac power cable 1; carrying case 1

**Product Name:**

Test set, thermostatic switch

**Special Features:**

The probes and cables are stored behind a drop panel in the lid of the case; the heater probe's heater elements are six (6) inches long, so that when clamped side by side, the required twelve (12) inches of sensor tubing is heated; increased gas pressure within the tubing causes the thermostatic switch to close, providing a current path for the alarm signal, which allows the operator to test the alarm switch function

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
