End Application:

Fm-200 sys actuator sys

Charge Design Type:

Standard

Design Type:

Hand

Unit Type:

Charged

Valve Type:

Penetrating seal

Capacity Rating:

5.0 pounds

Extinguishing Agent For Which Designed:

Carbon dioxide

Extinguishing Agent Discharge Method:

Stored pressure

Cylinder Type:

Nonshatterproof

Special Features:

5.25in diameter at base and 19.875in tall; manual operated co2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T278-b
