Container Material:

Aluminum alloy

Charge Design Type:

Standard

Design Type:

Hand

Unit Type:

Charged

Capacity Rating:

2.5 pounds

Extinguishing Agent For Which Designed:

Dry chemical and ammonium phosphate

Extinguishing Agent Discharge Method:

Stored pressure

Cylinder Type:

Shatterproof

Special Features:

UL rated : 1-a: 10-b-c --- extinguishing agent: monoammonium phosphate --- 2.5 pound --- seamless aluminum container --- dupont zytel nylon valve and handle --- comes with mounting bracket --- resists impact and won't rust -- for marine use -- model number m110 -- dial-type pressure indicator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T278-b
