End Application:

Crew shelter (inls) kdf208680-m

Design Type:

Automatic

Unit Type:

Charged

Capacity Rating:

4.5 kilograms

Extinguishing Agent Discharge Method:

Stored pressure

Cylinder Type:

Shatterproof

Product Name:

Fm-200 fire suppression system - halon

Special Features:

1.5 in valve; straight sipher tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T278-b
