End Application:

For continued operation of type a navy range guard apc fire extinguishing systems

Charge Design Type:

Standard

Design Type:

Stationary

Unit Type:

Charged

Capacity Rating:

1.2 gallons

Extinguishing Agent For Which Designed:

Aqueous potassium carbonate (apc)

Product Name:

(inavy)5 qt navy rg assembly

Special Features:

Pre-assembled with the cylinder, cylinder valve, gauge and low pressure switch

Fsc Application Data:

5 quart charge vice 2.5 quart charge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T278-b
