Design Type:

Stationary

Capacity Rating:

98.0 pounds

Extinguishing Agent For Which Designed:

Heptafluoropropane

Special Features:

For use with naval specification hfp systems, meets mil-e-24572; charged cylinder and valve assembly with actuator

Fsc Application Data:

Navy hfp fire system 3, 6, 7, 8, 10, 11, 12, 13, and 14

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T278-b
