End Application:

M1152a1

Charge Design Type:

High temperature

Unit Type:

Uncharged

Extinguishing Agent For Which Designed:

Dry chemical

Extinguishing Agent Discharge Method:

Stored pressure

Product Name:

Fire extinguisher assembly/bottle afes 4.2 lb

Special Features:

Repair parts kit valve assembly 61423-424617 1ea, bottle 61423-372555-3 1ea, o-ring inlet 61423-7086-0920 1ea, plug and pin assembly 61423-446721 1ea, warning label 61423-347683 1ea

Supplementary Features:

Height 15.80 max, width 5.24 min 5.44 max

Type/model Designation:

Hfc227-bc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T278-b
