End Application:

Aircraft instrumentation

End Connection Design:

Straight all ends

Measuring Method And Length:

60.000 inches

Product Name:

Fire hose assembly

Special Features:

Flexible convoluted ptfe hose per as1227; max operating pressure 20.69bar; jic female swivel straight mates with ms33656; fittings are aluminum

Media For Which Designed:

Dry chemical 1st response

Supplementary Features:

From tm1-70-9-23p; item no.20; page 333-1; flex hose assembly altimeter-encoder static 2/replaces 70450-01059-080/

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
