Body Material:

Steel, corrosion resisting

Maximum Operating Pressure:

100.0 pounds per square inch

Body Style:

Straight thru

Temperature Rating:

150.0 degrees celsius

Flow Control Device:

Ball

Bonnet Type:

Outside screw-yoke

Bonnet Attachment Method:

Bolted

Stem Movement Direction:

Ascending

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
