Product Name:

Afff form 3% - foam concentrate

Special Features:

Description: the buckeye 3% It-afff is a totally synthetic aqueous film forming foam concentrate for use in cold climates. A vapor suppressing aqueous film is formed by the foam solution draining from the expanded foam blanket. It is intended for use at a proportioning rate of 3% (3 parts It-afff concentrate to 97 parts water) on class b hydro-carbon type fuels such as gasoline, kerosene and diesel. Buckeye 3% It-afff is not intended for use on fuels which are polar solvent/water miscible such as alcohols, ketones and esters

Supplementary Features:

Ordering information: part no. 50125, 275 gal. Tote (1042 l) // weight: 2, 485.0 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
