End Application:

Mk 16 mod 0 eod uba

Installation Design:

Portable

Pressure Gage:

Not included

Flow Indicator:

Not included

Lighted Panel:

Not included

Emergency Oxygen Control Type:

Valve

Criticality Code Justification:

Feat

Product Name:

Presssure vessel heo2

Special Features:

Explosive ordnance disposal (eod) non magnetic oxygen clean material

Supplementary Features:

3000 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T164-h
