End Application:

C-17a acft: life raft assemblys

Special Features:

To insure proper deployment of a life raft in the event of a water ditching, specific folding instructions need to be followed before loading life rafts into container; once loaded, pressure is applied to container top for aspecified period of time. This allows the life raft to settle at or slightlybelow the rim of the container; used/wp/n 17g910021-1 metal folding plate

Functional Description:

Compresses the life raft into therigid container; the raft is folded andplaced inside the container. The plateor cover is placed on top of life rafttwo bands are wrapped around the container and secured; applies pressure andprovides for proper fit and for properdeployment from the rigid container

General Description:

Aluminum, anodized; 30 in. Lg; 16in. W; 1 in. H; 10.0 lbs wt.

Fsc Application Data:

46 man life raft assembly: cover, container, life raft p/n 17g910020-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
