Overall Length:

36.000 inches

Overall Height:

5.000 inches

Overall Width:

23.000 inches

Material:

Aluminum

Surface Treatment:

Paint

General Description:

The life raft container packing kit contains two pieces, a rectangular frame and "t" shaped spacer. The rectangular frame slips over the top portion of the rigid container to prevent distortion during packing and banding. The "t" shaped spacer is placed in the container to locate the pressure gauge of the gas/inflation reservoir and valve assembly near the inspection window. Kit weight: 10.0lbs., finish: gray paint, operating temperature 32 to 125 degrees f.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
