End Application:

Oxygen booster assembly, fads iii mixed gas sys

Quantity Of Persons For Which Designed:

1

Maximum Recommended Diving Depth:

2916.7 feet

Criticality Code Justification:

Zzzy

Product Name:

Gas booster

Special Features:

Dportable pressure test pacs; pressure, proof, leak, burst, fatigue of hydraulic, gas, refrigerant, automotive hose and rigid pipes; high pressure nitrogen charging system for military applications

Reference Number Differentiating Characteristics:

Requires special cleaning and packaging for oxygen and nitrogen service

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T352-c
