End Application:

Oxygen booster assembly, fads iii mixed gas sys

Quantity Of Persons For Which Designed:

1

Maximum Recommended Diving Depth:

833.3 feet

Criticality Code Justification:

Zzzy

Product Name:

Gas booster

Special Features:

Oxygen transfer and pressurization of accumulators; duplex stainless steel construction corrosion resistant in all environments; lock in rate capability ensures constant speed

Reference Number Differentiating Characteristics:

Requires special cleaning and packaging for oxygen and nitrogen service

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T352-c
