End Application: Oxygen booster assembly, fads iii mixed gas sys Quantity Of Persons For Which Designed: Maximum Recommended Diving Depth: 333.3 feet	
Quantity Of Persons For Which Designed: Maximum Recommended Diving Depth:	
Maximum Recommended Diving Depth:	
333.3 feet	
Criticality Code Justification:	
Zzzy	
Product Name:	
Gas booster	
Special Features:	
Oxygen transfer and pressurization of accumulators; duplex stainless steel construction corrosion resistantin all environments; lock in	ı rate
capability ensures constant speed	
Reference Number Differentiating Characteristics:	
Requires special cleaning and packaging for oxygen and nitrogen service	
Shelf Life:	
N/a	
Unit Of Measure:	
-	
Demilitarization:	
No	
Filg:	
Г352-с
