Overall Length:

87.880 inches

Overall Height:

17.840 inches

Overall Diameter:

24.000 inches

Product Name:

Diver propulsion device (dpd)

Special Features:

87.88 deployed length, 51.06 stowed length, standard collapsed for launch or storage

Supplementary Features:

Lithium ion battery assembly p/n 4510-118, lithium ion battery charger p/n 4510-112, extended range option p/n 4510-920, heavy duty carry bag p/n 4510-131, bow plane assembly p/n 4522-1-119, stern plane cable p/n 4530-9-421, steering assembly p/n 4522-1-100, steering cable p/n 4530-9-420, thruster assembly p/n 4523-1-100, throttle control assembly p/n 4525-1-100, throttle cable p/n 4530-9-135, throttle key lanyard assembly p/n 4525-1-140, rear deck assembly p/n 4527-1-150, fresh water wedge p/n 4527-1-170, t bar assembly p/n 4528-1-120, forward t bar mount assembly p/n 4528-1-130, cargo cover assembly p/n 4528-1-100, propeller kit p/n 4530-9-210, depth gauge p/n 4530-9-385, tac compass p/n 4530-9-380, contoured cargo bag p/n 4510-130, battery status indicator p/n 4526-1-150, neutral buoyancy unit block pack p/n 4510-944

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
