Overall Length:

27.000 inches

Overall Height:

23.000 inches

Overall Width:

27.000 inches

Color:

Red and black

Special Markings:

Caution label attached

Material:

Steel

Surface Treatment:

Paint

General Description:

Mounts on closed-head drum for safe use; reclaims fluids up to 30w or equivalent viscosity; gripper top roller and grooved bottom roller enable better grip for extractions; holding area for placement of loaded sorbents prior to wringing; feed assist alignment plate simplifies feeding and allows one-person operation; combination exit chute and tray collects both small and large amounts of sorbent and directs the wrung-out materials into a disposal drum or collection area for further processing; gear drive system; hose drainage system for use in a variety of collection receptacles; large area screen helps filter out fibers from reclaimed fluid

Shelf Life:

N/a
