Overall Length:
14.0 feet
Overall Width:
14.0 feet
Height:
8.0 inches
Product Name:
14'x14'x8" modular channel berm pump/filter through point
Functional Description:
Pump/filter through point for modular hose spill containment system with folding brace system that features supports that lock the wall in an
8" high 90 degree vertical position when deployed; support has no external inclined leg support or feature above 1.5" from the ground; user
shall pull up on perimeter wall and it will spring into a locked detent fully vertical position; to lower wall user pushes wall inward to overcome
detent lock and allows wall to lay flat to the floor; no insertion, snapping, tucking or assembly required; open ends have tongue and groove
closure that form liquid tight seal with next modular section
Material:
Plastic polyurethane
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A523p0
