Facepiece Type:

Safety glass

Features Provided:

Adjustable and chin strap and fluorescent feature

Product Name:

Extra long reference number is as follows: cage: 0f8s1: 04-0012-20; 04-0012-11x; 04-0000-30; 04-0000-11

Special Features:

With the filter turned off, the automatic filter provides filtration equivalent to a shade of not more than four shades lighter than the fixed filter shade. In the event of electronic failure, the filter will still provide this degree of protection. When the arc is struck, the filter automatically darkens, in 1/500 of a second, as long as the arc is lit. When the arc is extinguished, the filter reverts to the light phase to facilitate weld cleaning.

Material:

Plastic main body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A217a0
