End Application:

Rescue and retrieval safety

Product Name:

Rescue and retrieval system

Special Features:

60feet of 1/4inch galvanized steel cable and carry bag; lightweight 35 to 37 pounds; quick mount system, bracket mates with bracket to support structures and user attaches/detaches detent for retrofitting, no additional hardware needed; free-wheel mode; built in fall protection; overload clutch with auto stop; level wind; safety hook; reserve lifeline system

Material:

Aluminum and stainless steel

Surface Treatment:

Anodize and zinc

Special Test Features:

Meet or exceeds all industry regulations including osha and ansi

Supplementary Features:

Confined space rescue and retrieval system includes corrosion resistant complete with anodized aluminum side plates, zinc plated gears and shafts, stainless steel springs and aluminum drum

General Description:

Salalift ii fall protection winch; manual operation, gear ratio 6 to 1; lift speed 12.75ft per minute-no power source required

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
