Overall Length:

14.5 inches

Overall Height:

12.0 inches

Overall Width:

8.0 inches

Product Name:

Oil-less refrigerant recovery system

Special Features:

Operating temp range: 32 degree f to 120 degree f, power source: 230 vac 50 hz 1 phase, power consumption: 750 w, suction pressure gauge: -1 to 35 bar, discharge pressure gauge: 0 to 55 bar, construction: heavy gauge aluminum chassis with high density polyethylene case, overload protection: 6a thermal circuit breaker, flow rate: direct vapor: up to 32 kg/hr, direct liquid: up to 81kg/hr, push-pull liquid: up to 315 kg/hr.

Material:

Aluminum and plastic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
