Gas For Which Designed:

Dry saturated steam

Discharge Pressure:

3.000 pounds per square inch gage

Cooling System Design:

Single

Compressor Cooling Medium:

Air

Rotary Compressor Design:

Two impeller

Stage Quantity:

1

Compressor Speed At Rated Capacity In Rpm:

2000.0

Intake Connection Quantity:

4

Discharge Connection Quantity:

1

Drive Connection Type:

Multistrand v-belt

Brake Power Required:

7.500 horsepower

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A026a0
