Cross Sectional Shape:

Plain rectangular, straight face

Ring Style:

Concentric

Radial Wall Thickness:

0.0830 inches

Overall Width:

0.1200 inches

Standard Bore Diameter:

2.000 inches

Joint Style:

Step joint

End Application:

Pressure reducing valve; leslie co.Class Ins-5, p/n 17389n.

Special Features:

For 1.250 in.Valve size

Material:

Iron

Fsc Application Data:

Governor, pump pressure regulating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
