Thread Direction:

Right-hand

Outside Surface Treatment:

Epoxy resin

Overall Length:

Between 9.940 inches and 10.180 inches

Thread Size:

1.312

Overall Diameter:

10.000 inches

Pressure Rating:

6667.0 pounds per square inch

Screw Thread Series Designator:

Un

End Shape And Location:

Convex one end or flat one end

End Thickness:

1.700 inches

Opening Quantity:

1

Opening Size:

1.353 inches

Opening Location:

On top

Opening Characteristic:

Threaded

Mounting Base:

Not included

Material:

Alloy steel

Material:

Alloy steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-h
