Compressor Quantity
Compressor Quantity:
Duty Cycle In Percent:
100 Coa For Which Designed:
Gas For Which Designed:
Air
Discharge Flow Rate:
250.000 cubic feet per minute
Discharge Pressure:
100.000 pounds per square inch gage
Cooling System Design:
Mixed Companyed Con Continue Medium
Compressed Gas Cooling Medium: Oil
Compressor Cooling Medium:
Oil
Prime Mover Cooling Medium:
Fresh water
Unloader Type:
Automatic
Mounting Type:
Trailer
Rotary Compressor Design:
Sliding vane
Stage Quantity:
1
Intake Connection Quantity:
1
Prime Mover Type:
Diesel engine
Control Device Type:
Automotive speed regulator
Safety Device Type:
Automatic overspeed trip and high temperature shutdown switch and low pressure shutdown switch and relief valve
Special Features:
Four wheel tandem axle trailer mounted
Specification Or Standard:
B class and 250cfm size
Shelf Life:
N/a
Unit Of Measure:

--
