Air Compressor Rotor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4310-00-890-5976

Overall Length:
21.806 inches
Compressor Source:
29236
Special Features:
13.77 in.Min; 13978 in.Max legnth of body; first end of shaft 2.740 in.Mininum; 2.750 in.Max lg; end drilled concentric with center of body;
27.64 in.Diameter; 1.344 in.Deep; thread 1/2-13 unc; class 3b to a depth of 1.250 in.; 2ns end of shaft 5.078 in.Length; external thread
1-3/8-12 unf, class 2a, 0.750 in.Diameter of internal drilled bell shape hole; three lobe vane with keyway; center of keyway to coincide with
center of lobe
Material:
Steel
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A519h0
