Compressor Quantity:

1

Duty Cycle In Percent:

100

Gas For Which Designed:

Air

Discharge Flow Rate:

250.000 cubic feet per minute

Discharge Pressure:

100.000 pounds per square inch gage

Cooling System Design:

Single

Compressed Gas Cooling Medium:

Oil

Compressor Cooling Medium:

Fresh water

Prime Mover Cooling Medium:

Fresh water

Unloader Type:

Automatic

Brake Horsepower Required:

Any acceptable

Mounting Type:

Wheel

Rotary Compressor Design:

Sliding vane

Stage Quantity:

Any acceptable

Receiver Tank Capacity:

Any acceptable

Compressor Speed At Rated Capacity In Rpm:

Not rated

Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Discharge Connection Type:

Threaded female

Prime Mover Type:

Diesel engine

Safety Device Type:

Relief valve

Temperature Rating Per Function:

Not rated

Specification Or Standard:

2 type and 2 class and 250cfm at 100psi size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A026a0
