Compressor Quantity:

1

Duty Cycle In Percent:

100

Gas For Which Designed:

Air

Discharge Flow Rate:

45.000 cubic feet per minute

Discharge Pressure:

7000.000 pounds per square inch gage

Cooling System Design:

Single

Compressor Cooling Medium:

Air

Prime Mover Cooling Medium:

Air

Mounting Type:

Base

Reciprocating Compressor Design:

Compound acting

Stage Quantity:

4

Compressor Speed At Rated Capacity In Rpm:

400.0

Prime Mover Type:

Electric motor

Temperature Rating Per Function:

160.0 degrees fahrenheit operating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A026a0
