Mounting Type:

Any acceptable

Stage Quantity:

2

Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Drive Connection Type:

Flexible coupled

Body Surface Treatment:

Any acceptable

Cooling Medium:

Any acceptable

Vacuum Rating:

29.9 inches of mercury

Pump Body Material:

Any acceptable

Pumping Element Type:

Sliding vane

Operating Speed At Rated Capacity In Rpm:

1725.0

Air Displacement Rate:

2.5 cubic feet per minute in free air

System Design:

Noncorrosive

Features Provided:

Reversible rotation

Fsc Application Data:

Dehydration cargo refrigeration

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06700
