Compressor Quantity:

1

Duty Cycle In Percent:

100

Gas For Which Designed:

Air

Discharge Flow Rate:

1.300 cubic feet per minute

Discharge Pressure:

100.000 pounds per square inch gage

Stage Quantity:

2

Prime Mover Type:

Electric motor

Voltage In Volts And Current Type:

115.0 ac

Special Features:

Power unit is direct drive, 0.5 hp, split-phase, thermal overload protected motor; furnished w/ a 15 ft air hose, bleeder air chuck, safety valve, rubber feet, 6 foot cord

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A026a0
